

ROTABLE PROGRAM

Customized to fit your fleet, our Rotable Program is a unique opportunity to support your procurement and inventory processes. Operating as a bespoke consignment program, we work with your team to complete an analysis of your material needs and optimize inventory of your most commonly used rotatable components.

PROGRAM BENEFITS

When you enroll in our Rotable Program, we become an integral part of your team. Gain direct access to our 100,000+ lines of inventory and purchasing power via OEM discounts & agreements.

JSSI responsibilities:

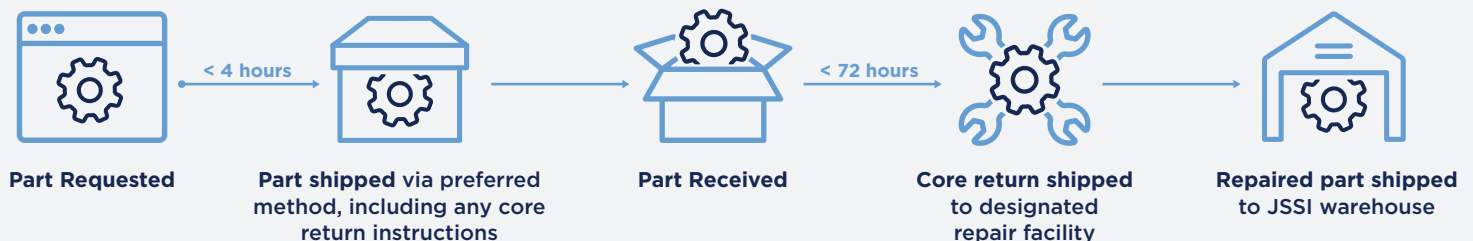

- Invest in rotatable stock for your operation and manages it for your exclusive use
- Manage repair costs and replacement of all consumables
- Provide 24/7 AOG support

Key benefits:

- Reduce aircraft downtime by leveraging dedicated stock in critical components
- Streamline processes to manage inventory and repairs

Upgrade option available to provide dedicated procurement support beyond your rotatable pool. Learn more about combining your rotatable program with our Supply Chain offering for a small additional fee.

PROCESS FLOW

PRICING

Get enrolled today – our simple cost structure starts at a small fee per flight hour with annual maximums based on initial stock investment. Talk with our team today to learn how we can best customize this program to fit your needs!
