

DISCOVER A RANGE OF AIRCRAFT CONSULTING SERVICES

From engine and airframe maintenance event management to appraisals or inspections by our team of technical advisors and ASA-accredited appraisers. All powered by decades of independent maintenance data, experience and technical expertise.

INDEPENDENT EXPERTISE

As an independent company with a global footprint, JSSI Advisory Services is uniquely positioned to provide clients with consistent, professional, and cost-effective solutions for virtually all makes and models of business aircraft.

**PROFESSIONAL, RESPONSIVE,
AND FLEXIBLE SERVICES TO
MEET YOUR NEEDS**

**30+ YEARS OF AVIATION
MAINTENANCE DATA AT
OUR FINGERTIPS**

**70+ TECHNICAL
EXPERTS WORLDWIDE**

**10,000+ MAINTENANCE
EVENTS MANAGED PER YEAR**

MAINTENANCE EVENT MANAGEMENT

Leverage the capabilities and buying power of business aviation's largest provider of maintenance services and benefit from the JSSI technical team overseeing your next engine overhaul or airframe inspection to drive efficiencies and cost savings.

APPRAISALS

Get an impartial and objective valuation of your aircraft, fleet, or collateral with a USPAP-compliant appraisal from our staff of ASA-accredited appraisers. Choose from remote desktop to on-site options.

ASSET INSPECTIONS

Let our team of technical experts act as an extension of your asset management department by performing an in-depth, objective, and efficient aircraft and logbook inspection.

CONSULTING

Our trusted aviation advisors draw on decades of technical knowledge, experience, and data to help you make informed aircraft ownership and operating decisions. Consulting offerings range from aircraft acquisition and tax planning to fleet analysis, cost management, federal government compliance, and more.
